nence, and the effect it might have and no subsequent depression. upon international relations, and in- And it isn't only in the realm of ternal equinamity, should be charged physical effort that sugar is superwe would say, to his penchant for seding alcohol. Many a brain worker publicity rather than to his sound has been surprised to find that when

There is such a thing as being too proud to fight. There is such a thing as a nation being so right that it does not need to use force to convince others that it is right. Ex-Pres't Roosevelt comes back

from Syracuse this way: The theory that force is not necessary to assert our rights presumes that a policy of blood and iron can be met by a policy of milk and water, to pursue which course places us in exactly the International position that China now occupies.

And now this from ex-Pres't Taft, \*peaking at Philadelphia:

We must proceed in this matter with deliberation and caution, and above all other things, stand by Pres't Wilson. The patience and pride o fthe American people can be strained to the breaking point and that means war, but haste will avail nothing. There will be time enough when the president by sound deliberation has made up his mind. Our wrongs need not be avenged immediately. Let us look into our own history. England connived at fitting out armed vessels to prey on our commerce, to attack our navy and to kill our sailors. We protested and what did we do then? We held her strictly accountable in the Geneva conference. Was not your honor as much preserved by this method as it would have been if we had declared war?

Safe and sane common sense. It convince others that it is right." The kept working all the time. difference between the Taft and Roosevelt attitudes is that Taft spoke as a sage while Roesevelt run mainly to wormwood and gall. # Mix the Breakfast Biscuits the Night Before-

Set Them Away in a Cool Place and Bake them Fresh in the Morning

If the family do not all eat breakfast together, you can bake a few at a time. If you are having hot biscuits for supper, mix and cut out enough more for breakfast. They will be much nicer freshly baked than warmed over.

Of course you can't do this very successfully with sour milk and soda or with any of the old fashioned, single acting baking powders, but this convenient way of making hot biscuits and muffins for breakfast is entirely satisfactory if you use

which is really a blend of two baking powders, one of which begins to give off leavening gas as soon as moisture is added. The other is inactive until heat is applied. The dough will remain in a partly leavened condition for hours and when put in the oven will come up just as light and fluffy as if freshly mixed.

Get a can of K C today and try this easy way of baking biscuits at once. You'll never go back to the old way. 51

Has been conceded by the critics as one of the best dramas ever staged.

No doubt many of you have seen the Servant in the House, and paid three dollars to see a single pertormance.

Now would you not like to have a servant in your house, to do all of the hard work, connected with housekeeping, such as running the sewing machine, washing machine, doing the ironing, cleaning and sweeping, and also lighting your home? This can be done for an entire month and for less than you paid to see one performance of the Servant in the House.

That is what ELECTRICITY is doing in the best homes today, and there is no reason for it not being done in all THE HOMES.

We will wire your house at cost of time and material, and install the Fixtures at cost, and give you twelve months in which to pay.

Call our New Business Department and our representative will call day or evening and give you an estimate.
